Women in AI

Women in AI (WAI) is a global network of female experts and professionals in the field of Artificial Intelligence working towards gender-inclusive AI that benefits a global society. Our mission is to close the gender gap in the field by educating the next generation of female leaders in AI and to increase female representation and participation in AI.

WAI Canada Hackathon 2023

WAI Canada Hackathon is a virtual collaboration event between October 23-November 16, with the final event on November 17, 2023. It connects efforts of diverse talent, skills, and micro-teams to jointly act to develop a solution that addresses a social issue or gap in the market. Teams can choose to develop a conceptual program, product prototype, or business model.

WAI Canada Hackathon allows participants to develop practical and applicable skills involving AI, innovation, and societal problem solving. It provides an opportunity to connect with like-minded peers and professionals in the industry through mentorships, workshops, pitch presentations and judging.
