“

Assessing students is complex and time-consuming, but its key to effective teaching. I am so proud of the Brightpath team and the work we have done to find a way of using AI to enhance teachers' professional judgement not replace it. Thank WAI for acknowledging our work.

Dr Sandy Heldsinger

Managing Director | Brightpath

**Women in AI
Awards 2022**
Australia - New Zealand

“

The future of society’s modern complex systems of critical infrastructure—our economy, hospitals, water, defence, food production, and almost everything—lies in advanced cybersecurity that applies AI to problem-solving and understanding threats. I believe women can contribute tremendously to this work of safeguarding our society and future generations.

Dr Elena Sitnikova

Associate Professor of Cybersecurity and Networking
| College of Science and Engineering, Flinders University

“

I am thrilled and honoured to receive this award. This highlights our efforts into advancing AI and machine learning techniques for sensor data. I'd like to acknowledge my students, postdocs, collaborators, and mentors. I hope we can inspire more women to join us towards solving difficult AI problems that matter.

Professor Flora Salim

Professor and Cisco Chair of Digital Transport
| School of Computer Science and Engineering, UNSW Sydney

“

I'm very excited to be the winner of the Women in AI in sport award. The Physical Activity and Sport Insights team annually integrates 1 million sport participation records across 13 major sports, delivering key insights for the sport, health and government sectors.

Professor Rochelle Eime PhD

Professor of Sport Participation
| Victoria University and Federation University

WINNER
AI in Law

Women in AI
Awards 2022
Australia - New Zealand

“

Receiving the Women in AI award provides the perfect evidence for why artificial intelligence and law can be allies in the fight for social justice. It is also a recognition of the University of Technology Sydney as the perfect place to do the type of socially-oriented innovative cross-disciplinary research that underpins the Gender Legislative Index.

Dr Ramona Vijayarasa

Senior Lecturer - Program Head, Juris Doctorate
| Faculty of Law, University of Technology Sydney

Australia - New Zealand

“

I'm honoured to receive the Women in AI: Agribusiness Award. This is only due to standing on the shoulders of giants. Amazing colleagues at CarbonLink & Mullion, have contributed remotely-sensed data, spectrometry, and carbon models. Women in AI, solving global carbon problems is exciting, and we need your voices.

Dr Melanie Zeppel

Senior Data Scientist | Carbonlink

“

Passionate, dedicated people are the core of all pioneering work! I would like to thank my brilliant team who put in the hard work to develop the “Abuse In Transaction Description” model, the Customer Vulnerability team who worked with us side-by-side, and our supportive leadership in CBA who always motivates us to innovate.

Anna Leontjeva

Senior Data Scientist

| AI Labs, Commonwealth Bank of Australia

“

Indigenous knowledge systems have underpinned the world’s oldest living peoples and culture on the driest continent on Earth. The creation of AI as a cultural practice enables us to harness the ubiquitous nature of technology to recalibrate business imperatives to the needs of Country and our future generations. This award is for my Uncle Mukgrrngal.

Professor Angie Abdilla

Founder and CEO | Old Ways, New
